

GARDENA Tool Gloves Size 10 / XL

Commercial Reference: 215-20
Article number: 966 80 72-01
EAN: 4078500021500

With the GARDENA Tool Gloves, tools lie securely in your hand. Innovative coatings on the finger insides guarantee a non-slip hold. Shock-absorbing pads in the glove palms give best comfort – also and especially when the impact of mechanical and motor-operated garden tools is to be reduced. The specially worked thumb optimises the fit and gives a longer life and a safe hold. Especially when you are working with e.g. axes, Hedge Trimmers or Pruning Loppers. The entire glove is made from special, breathable fabric material that prevents sweaty hands. Should you start to sweat anyway during work, the practical sweat wiper integrated in the thumb in the glove is always ready to use. The robust cuff on the wrist is adjustable and protects against dirt and injuries.
